

ASSOCIATION MISSING BABIES OF BELGRADE PARIS – FRANCE SEPTEMBER 2022

The Association **Missing Babies of Belgrade** received an invitation to participate in a one-day seminar in Paris on September 3, 2022. on the topic "Fight against child abuse" ("Lutter contre les abus envers les enfants"), organized by the French association "Justice Initiative" in cooperation with the Swiss foundation "Guido FLURI". Our Association responded to this invitation and attended the seminar in Paris with two of its representatives. The seminar consisted of three panels followed by discussions on the following topics:

- Evidence of child abuse
- Response to abuse, i.e. punishment system
- Is it possible, and how, to (re)treat the victim

These three topics were addressed from the perspective of different national legislations of the European countries participating in the seminar. Representatives of various associations from Italy, Portugal, France... presented the solutions of the legal systems of their countries, what started fascinating discussions at the end of each panel. Namely, as the audience included parents of victims and victims of abuse themselves, some of them presented their stories and criticized the judicial system, centers for social work and other actors in their fight for justice.

The Association of Missing Babies of Belgrade was represented by the president of the association, Dušanka Bužanin, who used this opportunity to present the association in the best possible way and make contacts important for further cooperation with European organizations.

In our photo gallery you can see all the photos taken during their stay in Paris
